

Limited Extension: Special MSc and MBA Admissions at NUS Business School

Rethinking your American Business Masters Degree?

Official American government policies continue to generate uncertainty and discomfort about student visas. At NUS Business School, we understand and sympathize with these worries. As Asia's top university ([QS ranks NUS #8 world-wide](#)), we'd like to help exceptional students being harmed through no fault of their own.

If you have received a verifiable offer from a top-20 MSc or MBA program but are now reconsidering your plans, we welcome you to instead join us at the National University of Singapore. In addition to our MBA, we have a range of specialized Master's degree programs, and we have re-opened our admissions portal to give you another option.

At NUS Business School, Asia's leading business school, we are committed to developing future-ready leaders through world-class research, breakthrough learning and a deep understanding of the business landscape. More than just a school, we are a vibrant community of innovators, changemakers, and global thinkers. Rooted in Asia and connected globally, our programs offer academic excellence with real-world impact.

Singapore is an exciting multi-cultural city at the heart of South-East Asia, which prides itself on being an island of tranquility and stability. There is no safer or happier city in the English-speaking world. (Singapore also happens to be a short plane trip from Bali and Phuket.)

We look forward to welcoming you to the NUS community!
