- Foundational Investments
 - Carbon Accounting and Sustainability Reporting
- Sustainable and Green Investment
 - Sustainability Risk Management
 - Sustainability in Supply Chain

*Courses are available to both Full-Time and Part-Time students.

CAREER SUPPORT (Applicable to both Full-Time and Part-Time students)

Our students benefit from robust opportunities to connect with corporate partners, industry experts, peers, and a dynamic global alumni network. These connections are fostered through networking events, company visits and industry panels — empowering them to make informed career decisions and build professional relationships.

HEAR VALUABLE INSIGHTS FROM OUR STUDENTS

“ Studying at NUS Business School has been a transformative experience, **equipping me with practical insights** into Sustainable and Green Finance. Singapore’s commitment to sustainability has reinforced my belief in finance as a force for environmental and social change, inspiring me to drive impact in my field.

”

Pretty Nozipho
South Africa, Class of 2025

“ It is **intensive, insightful and best of all engaging!** My biggest takeaway from the programme is becoming a more critical and passionate person, especially in the field of sustainability. Engaging with the diverse set of people while being supplemented with deep understanding of sustainable finance has definitely shaped the person I am now.

”

David Sebastian Hartono
Indonesia, Class of 2025

ENHANCING INSIGHTS & INDUSTRY EXPOSURE

In collaboration with the **NUS Sustainable and Green Finance Institute**, this programme is designed for MSc in Sustainable and Green Finance students, offering Capstone projects, weekly industry talks, and access to a dedicated research institute. These opportunities equip students with current knowledge and hands-on industry exposure, preparing them for success in sustainable finance.

CAPSTONE PROJECT

Over a six-month period, students will have the opportunity to collaborate with **leading organisations** to tackle real-world challenges in sustainable finance. Examples of organisations that students have partnered with in the past include GIC, KPMG, SGX, and WWF. With support from **dedicated faculty and industry professionals**, students conduct in-depth research, craft strategic solutions, and deliver impactful results that prepare them for leadership in the evolving financial sector.

Powered by research and corporate partnerships, the NUS Sustainable and Green Finance Institute's **Weekly Industry Talk Series** features top sustainability leaders from banking, consulting, investment, and advocacy. These expert-led sessions offer MSc students **real-world insights and valuable networking opportunities**, shaping future leaders in sustainable finance.

INDUSTRY TALKS

Some topics* include:

- Sustainability reporting & climate risk
- ESG investing & impact finance
- Carbon markets & net-zero strategies
- Green bonds & sustainable instruments

*Topics discussed are subject to changes.

Cutting-Edge Research & Industry Insights

Drawing from insights gathered by NUS Sustainable and Green Finance Institute (SGFIN), this programme ensures that students are well-prepared to navigate the dynamic landscape of sustainable finance. Students gain invaluable experiential learning opportunities, including participation in SGFIN's in-house research and industry projects, providing hands-on experience with real-world sustainability challenges.

The programme also features regular contributions from thought leaders in sustainability and green finance, offering expert insights to the students and SGFIN's research team. These collaborations play a key role in shaping the next generation of leaders in the sustainable and green finance sectors.

THE NUS MSc IN SUSTAINABLE AND GREEN FINANCE (PART-TIME)

Designed for working professionals, this **part-time 21-month programme** empowers you to drive sustainable change within your organisation and beyond, while balancing work and study. The programme is designed to train students to challenge sustainability issues faced by businesses, financial institutions and investors in Asia and beyond.

It includes a **Practicum** which allows students to apply the concepts and frameworks learnt from the core and elective courses on the topics of sustainable and green finance in a real world situation or environment.

BROADEN YOUR NETWORK (Applicable to both Full-Time and Part-Time students)

Expand both your professional and personal networks by tapping into NUS’s vibrant ecosystem. Engage with peers, seniors, and industry leaders through a wide range of events and initiatives. NUS Business School has a dedicated alumni unit, the BIZAlum, offering a platform for developing relationships, raising profile and standing of alumni – fostering internal and external alliances.

HEAR VALUABLE INSIGHTS FROM OUR STUDENTS

“ I had some trepidation as I was getting back to formal education after nearly three decades. I decided on the NUS Masters as it had a flexible schedule spread over two years. It **builds a solid foundation** in finance through courses such as Investments and Corporate Finance, Economics in Sustainability and Corporate Governance & Sustainability. ”

Subhramit Das
Singapore, Class of 2025

“ The concept of Sustainability is not an option but an **essential element in the business world**. I have been exploring interesting topics with the MSc in Sustainable and Green Finance course, and the faculty also gives us a lot of insights into topics such as Environmental, Social and Governance (ESG). ”

Kwon Kijung
South Korea, Class of 2025
